

The Hillsborough Recorder.

WEDNESDAY, AUGUST 19, 1874.

LOCAL DEPARTMENTS.

Terms of the Recorder for 1874.
For 1 year, \$3.00.
For 6 months, 1.00.
Payments always in advance.
Job printing done neatly, cheaply and promptly.

See first and fourth pages for advertisements.

New Cotton.

Not in Orange, but in Georgia, and Alabama, has been in the market for some time. Market has been steady, at from 15 to 16. When will our Orange farmers be able to give the new crop a fair return?

Peas.

Almost the only peas present in our market this summer are watermelons and musk melons, of which latter the different varieties furnish delicious specimens. Of peaches and apples there are none worthy any to be named.

Col. Humphrey has secured for the A. & N. C. Rail Road the same rates of freight with the North Carolina road that are now enjoyed by the R. & O. and W. & W. Roads. Will not Newbern now make a push for some of the trade of the back country?

What use will the Republicans of Hillsboro make of the tar and powder they got from Raleigh to celebrate their glorious victory? Pity to waste it.

The Rev. Dr. Cheshire preached a most admirable sermon in St. Matthews on Sunday morning last, to a crowded congregation.

The Rev. Mr. Fitzgerald also preached in the Presbyterian Church to a large congregation.

There are now 50 students in Morris and Graves schools.

A good deal of efficient work has been done on the streets lately, and we are sure the commissioners have much to be commended. Let them go ahead, and make a clean breast of it.

The Schoolship.

We have not been able to get the official returns exact for this election. Mr. Strudwick's majority is between 200 and 300.

Values.

Among the visitors now in town, we recognize the Rev. Wm. Norwood of Va. Mr. Wm. Norwood of Savannah Ga. Dr. J. M. Graham of Charlotte, and Mr. E. McNair of Tennessee.

Good Wheat.

Edmund Thompson, a neighbor and subscriber informs us that from a fraction of over two acres of wheat, he cleaned up 25 bushels. This does not compare with some of the brag crops we read of, but nevertheless is a fine one compared with the general yield of the county.

It is only another illustration of what is done by work and by manure. Here is produced by two acres what in most cases this year took nine acres to do. Who does not see the difference, and recognize the advantage? Go to work plant less land, make more manure, and improve your lands in cultivation.

How W. A. Graham.

Is at present at the Atlantic House, Beaufort, and is in tolerable health. He goes this week to one of the Virginia Springs.

Stone killed.

Dr. Wm. Cameron had the misfortune to have a fine mare, which he used in his practice killed a few days ago by the kick of another mare in the stable. The fore shoulder was so badly shattered as to make the shooting of the poor brute a necessity as well as a mercy. It is a serious loss to a professional man.

Some Changes.

Some changes in the schedule which took effect Aug. 10th will be found in the appropriate column.

Capital Recognition.

A prominent republican here upon learning of the result of the Congressional election in the State, remarked "Well that's all right; there are seven gentlemen elected, and they ought to have one darkey to wait on them."

A Good Nelson.

Mr. James Turner, living between here and Durham showed us a watermelon, which is pretty good for Orange, not claiming to be a watermelon county. It weighed 3 pounds. Orange can brag on her cotton and her tobacco, and if she takes it into her head to do so, will brag on her melons.

A Storm.

A storm of singular character came up suddenly about 11 o'clock last Wednesday night and continued for several hours. The wind blew with great force, breaking down trees, and tearing off limbs of trees. The striking feature of the storm was the lightning which played with incessant and blinding flashes from the beginning to the end, and the thunder rolled in ceaseless and terrific detonation. We hear of no damage by the lightning. The storm was a general one in this section, and the rain was very beneficial to the crops.
